

LAUREL
Coin Wrapping
Machines

LAUREL has developed the most excellent and sophisticated Machines.

"LAUREL" is the right choice for your Coin Wrapping Machines.

LPC-2R

LAC-16 Series

FEATURES

Easy to Operate

The user-friendly panel gives an easy-to-see and foolproof, clear visual operational guidance. All counting and wrapping procedures are illustrated and instructed to the operator on the Operation Panel.

Highly Reliable Performance

LAUREL Coin Wrapping Machines are designed and developed based on an experience and long history of LAUREL and are proud of the incomparable durability and productivity. Modifying the highly reputed LAC-16/16HD, the Models LAC-16R/16HR have more durable quality.

Automatic Jam Reconciliation & Rejection

With the LAC-16 Series a coin jam and error recovery is easy. Its unique mechanism clears the jam speedily and automatically and the Machine continues the job without interruption. On top of that, foreign coin, smaller/larger diameter coin, odd coin and irregular coin stack are automatically rejected into the Clear Box/Sort Box with the number of coin rejected automatically deducted and shown on the count display.

Multi coin Processing Capabilities

LAC-16 Series has universal cams and memory card make it real quick and simple to change coin wrapping specifications. When a new coin or token starts circulating in the market, all you have to do is just install a new memory card from Laurel in which the necessary data of the new coin or token are registered and let the LAC-16 Series do the rest of the job.

LAC-16HR

The model LAC-16HR has been developed for the special customers who have the working environment where the coin wrapping machines must be in non-stop operation for almost 24 hours a day. The critical worn-out parts have been greatly improved in its durability to endure and maintain the speedy processing in high volume.

After Sales Service

A worldwide network of "LAUREL" authorized distributors assures you of high level of support and after sales service.

ISO 9001

LAUREL Coin Wrapping Machines have been manufactured at the factory which meets the ISO 9001 Quality Systems requirement.

EC Directives

LAUREL Coin Wrapping Machines comply with the EC Directives Low Voltage 73/23/EEC and EMC 89/336/EEC.

RoHS Regulations

LAUREL Coin Wrapping Machines comply with the RoHS regulations.

Options for LAC-16 Series

Coin Roll Height Detection Unit
Mechanical Coin Roll Counter
RS232C Serial Interface Facilities
RS422 Serial Interface Facilities
LAUREL Interface Link

SPECIFICATION

Model	LAC-16R / LAC-16HR		LPC-2R
Dimensions	Height	1150mm	1027mm
	Width	410mm	400mm
	Depth	600mm	550mm
Weight	Approx. 140Kg		Approx. 120Kg
Acceptable Coin Diameter Range	15mm - 38mm		15mm - 33mm
Acceptable Coin Thickness Range	1mm - 3.5mm		1mm - 3.5mm
Wrapping Speed	Max. 40 rolls per minute		Max. 20 rolls per minute
Counting Speed	Max. 3000 coins per minute		Max. 1500 coins per minute
Acceptable Coin/Token Specifications	Max. 16		Max. 12
Hopper Capacity	Approx. 8000 coins		Approx. 5000 coins
Power Source	100 - 125V / 200 - 240V -		
Frequency	50 - 60Hz
